

SEEKING RESEARCH PARTICIPANTS

Couple Identity and Cancer Project

We are looking for individuals diagnosed with **breast cancer** or **prostate cancer** to discuss the challenges they faced during treatment and how it affected their past or present partnerships.

Principal Investigator is Dr. Karen Fergus, Sunnybrook Odette Cancer Centre

What we're asking of you:

Complete online questionnaires

Participate in a 90-minute Zoom interview

Share your experience regarding how cancer affected your partnership

How will the research help?

Cancer is a significant health event that affects individuals, their partners, and their families. Many people report cancer negatively impacted their romantic relationships and thus we are hoping to understand more in order to better assist couples in coping with cancer.

Interested in Participating?

You can email or call our study coordinator, Sami Harb
Email: sami.harb@sunnybrook.ca
Call: 416-480-6100 ext. 81447

Eligibility

- Adults 30+ who completed a course of cancer treatment*
- Adults who were in a romantic relationship at the time of cancer diagnosis
- Adults who are able to complete questionnaires and participate in an interview in English

*Note individuals who are receiving ongoing therapies (e.g., hormonal) and/or are living with more advanced disease are eligible

Participants will receive an Amazon gift card for their time
